ONLINE SEMINAR
Storefronts and Curtain Wall Systems

Online Training Event

When: Thursday, September 10, 2020
Time: 1:00 pm to 4:00 pm
Location: Online Educational Event
Cost: $30.00
CEH: 3 hours

Training Topic: Storefront and Curtain Wall Systems
Presenter: Wes Rossell, Vice President, Alexander Metals
Time: 1:30 pm to 4:00 pm

This presentation will address the most common types of storefront and curtain wall assemblies. Wes will be addressing the trends in the industry, common obstacles with the installation process, and other issues. The course will outline specific ways water intrusion through the system can occur and how to prevent key points of water entry. The presentation will include a time for question and answers, where participants will have the opportunity to fire off questions to the experts.

About the Presenter: Wes Rossell
Wes is the Vice President of Alexander Metals, a diversified commercial subcontractor specializing in the promotion, sales, fabrication, and installation of architectural building products such as commercial storefronts, curtain wall, aluminum windows, translucent skylights and wall panels. Alexander Metals has been in business for 28 years, and was established in 1992. The company has completed more than 200 projects and been awarded over 50 achievement and industry awards for their dedication to quality construction.

Attendees are required to register. (Unfortunately no refunds can be provided).

Special Note: There will be $100.00 dinner gift card given away during the presentation.
